

Rebtel offers 30 minutes of calling to any where in world for free. Sign up and get 30 minutes of calling for free! Already have an account? [Log in here](#) Limited time offer! Get 30 mins FREE. No strings attached. Sign up and make your first call now!

You and your friend needs to get local number. Getting FREE local numbers for you and your friends around the world is simple!

1. The first time only, tell us the name and phone number of the friend you want to call
2. You are given a new phone number for each friend that is yours to use **forever**. Save it in the address book on your phone!
3. Whenever you want to talk to your friend, dial the new local number for that friend instead of the old long distance or international number.

We would personally recommend if you have a computer with broadband connection and admin rights to install programs, install freecalls and dial number directly off the computer.
